The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone, including the dealer, at the table.

E. After the cards have been dealt, and if necessary, the procedure in subsection F has been executed, beginning from the dealers left, the player shall indicate whether he wishes to double down as permitted under §10 (relating to doubling down), split pairs as permitted under §11 (relating to splitting pairs), stand or draw as permitted under §12 (relating to drawing of additional cards by players and the dealer).

F. As each player indicates his decision(s), the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision consistent with this chapter. The property may offer the option for a player to request for a card to be dealt face down in instances of "doubling down". The dealer will deal the card face down during these instances.

G. After the decisions of each player have been implemented and all additional cards have been dealt; the dealer shall turn the second card that was dealt to the dealer face upwards. Any additional cards required to be dealt to the hand of the dealer under §12.B shall be dealt face upwards at this time.

H. At the conclusion of a round of play, all cards still remaining on the layout shall be picked up by the dealer in order and in a way that the cards can be readily arranged to indicate each player's hand in case of question or dispute. B. If the first face up card dealt to the dealer is an ace, king, queen, jack or 10 and a player has a Blackjack; the dealer shall make no payment nor remove any cards until the dealer's second card is known not to give the dealer Blackjack. If the dealer's second card does not give the dealer Blackjack, play will continue and the player having Blackjack shall be paid at odds of 3 to 2 or 6 to 5. If the dealer's second card gives him Blackjack, the wager of the player having Blackjack shall be void and returned to the player.

9. **Insurance Wager.**

A. Whenever the first card dealt to the dealer is an ace, each player shall have the right to make an Insurance Wager which shall win if the dealer's second card is a king, queen, jack or 10 and shall lose if the dealer's second card is an ace, 2, 3, 4, 5, 6, 7, 8, or 9.

B. An Insurance Wager may be made by placing on the insurance line of the layout an amount not more than half the amount staked on the player's initial wager. A player may wager an amount in excess of half of the initial wager to the next unit that can be wagered in chips, when because of the limitation of the value of chip denominations; half the initial wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

C. Winning Insurance Wagers shall be paid at odds of 2 to 1.

D. Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

10. **Double Down Wager.**

A. Except for when a player has a Blackjack, a player may elect to make a Double Down Wager, which may not exceed the amount of his original wager on the first two cards dealt to him or the first two cards of any split pair except aces, on the condition that one and only one additional card shall be dealt to the hand on which the player has elected to double down.

B. If a dealer obtains Blackjack after a player makes a Double Down Wager, the dealer shall only collect the amount of the original wager of the player and shall not collect the additional Double Down Wager.

C. Upon a player's election to make a Double Down Wager, the dealer shall deal the one additional card face upwards, and placed sideways on the layout. Players may request the double down card to be dealt face down. When the hand is over the dealer will turn-over the card dealt face down revealing the value and pay and take according to round of play rules.

D. The property may elect to offer different Double Down Wager rules on double deck and single deck Blackjack games. These rules will be clearly posted at each double deck and/or single deck Blackjack game.

11. **Splitting Pairs.**

A. Whenever the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands provided that he makes a wager on the second hand so formed in an amount equal to his original wager. For example, if a player has two 7's or a king and a 10, the player may elect to split the hand.

B. When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand.

C. After a second card is dealt to each split pair hand, the player shall indicate his decision to stand, draw or double down with respect that hand except that: A player may split two more pair if the second card dealt is identical in value to a card of the split pair, for a total of four hands. A player may split aces once for a total of two hands with each ace receiving one card. When a 10 is drawn on a split ace the hand total is 21, not blackjack. When an ace is drawn on a split 10 the hand total is soft 21.

D. If the dealer obtains Blackjack after a player splits pairs, the dealer shall only collect the amount of the original wager of the player and may not collect the additional amount wagered in splitting pairs.

E. The property may elect to offer different split rules on double deck and single deck Blackjack games. These rules will be clearly posted at each double deck and/or single deck Blackjack game.

12. **Drawing of Additional Cards by Players and the Dealer.**

A. A player may elect to draw additional cards whenever his point count total is less than 21, except that:

i. A player having a hard total of 21 may not draw additional cards.

ii. A player electing to make a Double Down Wager may draw only one additional card.

iii. A player splitting aces may only have one card dealt to each ace.

B. Except as provided in subsection C, the dealer shall draw additional cards to a hard total of 17 or above or soft total of 18 or above, unless specified on the layout that the dealer will stand on any 17.

C. A dealer shall draw no additional cards to the dealer's hand, regardless of the point count, if decisions have been made on all player's hands and the point count of the dealer's hand will have no effect on the outcome of the round of play.

13. **Player Wagering on More Than One Box.** The property has the right to allow a single patron to play a multiple number of adjacent boxes during one round of play. The property may require a specific minimum wager for multiple bets, which may be different than the posted minimum.

14. **Continuous Shuffling Shoe or Device.** In lieu of the dealing and shuffling requirements set forth in §6 and 7 (relating to shuffle and cut of the cards; and procedure for dealing cards), the property may utilize a dealing shoe or other device designed to automatically reshuffle the cards.

D. The first vertical column in Table 1 labeled "Point Count of Banker's Hand" refers to the Point Count of the Banker's Hand after the first two cards have been dealt to the Banker's Hand.

E. The first horizontal row at the top of Table 1 labeled "Value of the Third Card Drawn by Player's Hand" refers to the value of the third card drawn by the Player's Hand, not the Point Count of the Player's Hand.

F. To use Table 1, first find the Point Count of the Banker's Hand in the first vertical column and trace that horizontally across the table until it intersects the vertical column that corresponds to the value of the third card drawn by the Player's Hand. The symbol located where the intersection occurs shall determine whether the Banker's Hand must draw a third card or stay. For example, if the Point Count of the Banker's Hand after two cards is 5 and the value of the third card drawn by the Player's Hand is 4, the table shows that the Banker's Hand must draw a third card.

12. **Announcement of Result of Round; Payment and Collection of Wagers.**

A. After each hand has received all the cards to which it is entitled under § 9, 10 and 11 (relating to hands of player and banker; procedure for dealing initial two cards to each hand; procedure for dealing a third card; and rules for determining whether a third card shall be dealt), the dealer shall announce the final Point Count of each hand indicating which hand has won the round. If two hands have equal Point Counts, the dealer shall announce "tie hand".

B. After the result of the round is announced, the dealer responsible for the wagers on the table shall first collect each losing wager. After the losing wagers are collected, the dealer shall, starting at the highest numbered player position at which a winning wager is located, pay that player's winning wager and then, proceeding in descending order to the next highest numbered player position at which a winning wager is located, repeat this procedure until each winning wager is paid.

8. **Throw of the Dice.** The shooter shall make a Pass Bet or Don't Pass Bet prior to selecting the dice. The shooter shall throw the two selected dice so that they leave the shooter's hand simultaneously and in a manner which attempts to strike the end of the table farthest from the shooter.

A. When the dice come to rest from a valid throw, the Craps stickperson, another dealer, or the boxperson shall call out the sum of the numbers on the uppermost or skyward sides of the two dice. Only one face on each die shall be considered uppermost or skyward.

B. In the event either or both of the dice do not land flat on the table (for example, one edge of the die is resting cocked on a stack of chips), the dice will be called in a manner consistent with the natural fall of the dice. If more than one side of a die is resting on a stack of chips or other object, the roll shall be void and the dice shall be re-thrown.

C. In the event of a dispute as to which face is uppermost:

i. In Craps, the boxperson shall have discretion to determine which face is uppermost or to order the throw be void and the dice be re-thrown.

D. In Craps, after calling the sum total of the dice, the stickperson shall collect the dice and bring them to the center of the table between himself and the boxperson. B. If there are no other players at the table, or if no other players at the table elect to make a Pass Bet or Don't Pass Bet in order to shoot the dice and continue the game, the previous shooter shall be allowed to shoot the dice without making a Pass Bet or Don't Pass Bet only for the purpose of effecting a decision on the remaining Come Bets or Don't Come Bets. The on/off marker shall be placed on the Don't Pass Line in the off position in front of the shooter in order to indicate that the shooter is rolling the dice only to effectuate a decision for the Come Bets or Don't Come Bets remaining on the layout. Once the remaining Come Bets or Don't Come Bets have been decided or a player wishes to place a Pass Bet or Don't Pass Bet, the game shall proceed in accordance with § 8 (relating to throw of the dice).

C. Whenever a voluntary or compulsory relinquishment of the dice occurs by the shooter, the Craps stickperson shall offer the complete set of five or more dice to the player immediately to the left of the previous shooter and, if he does not accept, to each of the other players in turn clockwise around the table.

iii. Once all Fire Bets are placed, the bets will be moved to the corresponding number of the designated area in front of the boxperson, where the Fire Bets shall remain until they are either lost or paid.

iv. With each individual point made by a shooter, the dealer shall place a Fire Bet point marker inscribed with the total number of different unique points made by the shooter in the area of the table layout containing the number of the point (4, 5, 6, 8, 9 or 10) which was just made. Each Fire Bet point marker shall be visually distinguishable from and have a diameter larger than any authorized gaming chip. C. Only players who are seated at a Four Card Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

D. Ante Wagers and Aces Up Wagers shall be placed prior to the cards being dealt in accordance with the dealing procedures in §8 or §9 (relating to procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except for Play Wagers, a wager may not be made, increased, or withdrawn after the cards have been dealt. All Play Wagers shall be placed in accordance with §10 (relating to procedures for completion of each round of play).

E. A player may not be permitted to simultaneously play and wager on more than one player position.

8. **Procedures for Dealing the Cards from the Hand.**

A. If the cards are dealt from the dealer's hand, the following requirements shall be observed:

i. After the procedures required under §5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. The cards held by the dealer shall at all times be kept in front of the dealer and over the table inventory container.

ii. Unless specified in the rules of the game, no wagers may be altered once the first card of the round has been dealt. The dealer shall deal each card by holding the deck of cards in the left hand and using the other hand to remove the top card of the deck.

B. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed an Ante Wager or an Aces Up Wager and to the dealer until each player who placed a wager has five cards and the dealer has six cards. All cards dealt to the players and the first five cards dealt to the dealer shall be dealt face down. The sixth card dealt to the dealer shall be dealt face up. The dealer's fifth and sixth cards shall be dealt consecutively.

C. After five cards have been dealt to each player and six cards have been dealt to the dealer, the dealer shall place the stub in the discard rack without exposing the cards.

D. If a player has more or less than five cards or the dealer has more or less than six cards, but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the number of cards in the deck is more or less than 52 cards, all hands shall be considered void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

9. **Procedures for Dealing the Cards from an Automated Dealing Shoe.**

A. If the cards are dealt from an automated dealing shoe, the following requirements shall be observed.

i. After the procedures required under §5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

B. The dealer shall deal the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager or Aces Up Wager. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deal a stack face down to each of the other players who has placed an Ante Wager or Aces Up Wager. The dealer shall then deal a stack of five cards face down to himself. When the automated dealing shoe dispenses the next stack of five cards, the dealer shall remove the stack from the shoe and place the stack on the layout next to his hand. The dealer shall spread the cards in the stack face down, with the bottom card of the stack to the dealer's far left and the top card of the stack to the dealer's far right. The dealer shall turn the bottom card of the stack (the card on the dealer's far left) face up on the dealer's hand. The dealer shall collect the remaining four cards of that stack and place the cards in the discard rack without revealing the cards.

C. After each stack of five cards has been dispensed and delivered in accordance with this section, the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection D, place the cards in the discard rack without exposing the cards.

D. If a player has more or less than five cards or the dealer has more or less than six cards, but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the number of cards in the deck is more or less than 52 cards, all hands shall be considered void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

10. **Play Wagers: Procedures for Completion of Each Round of Play.**

A. After the dealing procedures required under §8 or §9 (relating to procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards.

B. Each player who wagers at Four Card Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

C. The dealer shall, starting with the player farthest to the left of the dealer and continuing clockwise around the table, offer each player who has placed an Ante Wager the option to either make a Play Wager or forfeit his Ante Wager. A Play Wager shall be made in an amount from one to three times the amount of the player's Ante Wager. If a player has placed an Ante Wager and an Aces Up Wager but does not make a Play Wager, the player shall forfeit the Ante Wager and the Aces Up Wager.

D. After each player has either placed a Play Wager on the designated area of the layout or forfeited his Wager, the dealer shall collect all forfeited Wagers. The dealer shall collect the cards of any player who forfeited his Wager and place the cards in the discard rack.

i. If all players discard their hands and forfeit their wagers; the dealer will place the dealers' cards in the discard rack and begin the dealing process again.

E. The dealer shall then reveal the dealer's cards and select the four cards that form the highest possible ranking hand. The dealer shall then, starting with the player farthest to the dealer's right whose hand is still active and continuing Counter-clockwise around the table, reveal the cards of the player and select the four cards that form the highest possible ranking hand. The dealer shall then pay winning or collect losing Ante, Play and Aces Up Wagers for the player in accordance with §11.A (relating to payout odds) and discard the player's cards by placing them in the discard rack.

(b) The shuffled cards have been secured, released and prepared for play.

7. **Procedure for Dealing Cards.**

A. All cards used to play Blackjack shall be dealt from a dealing shoe specifically designed for that purpose.

B. After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players. At the property's discretion, a dealer may not burn a card.

C. At the commencement of each round of play, the dealer shall, starting on his left and continuing around the table, deal the cards in the following order:

i. One card face upwards to each box on the layout in which a wager is contained.

ii. One card face downwards to the dealer.

iii. A second card face upwards to each box in which a wager is contained.

iv. A second card face downwards to himself, at which time his first card is exposed.

D. If the dealer's first card is an ace, king, queen, jack or 10 of any suit, the dealer shall determine whether the hole card will give the dealer a Blackjack prior to dealing any additional cards to the players at the table. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone, including the dealer, at the table.

E. After the cards have been dealt, and if necessary, the procedure in subsection 6.F has been executed, the dealer shall, beginning from his left, have the player indicate whether he wishes to double down as permitted under § 10 (relating to Double Down Wager), split pairs as permitted under § 11 (relating to splitting pairs), stand or draw as permitted under § 12 (relating to drawing of additional cards by players and the dealer).

F. As each player indicates his decision(s), the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision consistent with this chapter and shall announce the new point total of the player after each additional card is dealt. The property may offer the option for a player to request for a card to be dealt face down in instances of "doubling down". The dealer will deal the card face down during these instances.

G. After the decisions of each player have been implemented and all additional cards have been dealt; the dealer shall turn the second card that was dealt to the dealer face upwards. Any additional cards required to be dealt to the hand of the dealer under § 12.B shall be dealt face upwards at this time. The dealer shall announce the dealer's total point count after each additional card is dealt.

H. At the conclusion of a round of play, all cards still remaining on the layout shall be picked up by the dealer in order and in a way that the cards can be readily arranged to indicate each player's hand in case of question or dispute. The dealer shall pick up the cards beginning with those of the player to his far right and

moving counterclockwise around the table. After all the players' cards have been collected the dealer shall pick up his cards against the bottom of the players' cards and place them in the discard rack.

I. Whenever the cutting card is the first card in the dealing show at the beginning of a round of play or is reached in the deal of the cards, the dealer may continue dealing the cards until that round of play is completed after which the dealer shall:

- i. Collect the cards as provided in subsection J.
- ii. Remove the cards remaining in the shoe and place them in the discard rack.
- iii. Shuffle the cards so that they are randomly intermixed.

J. Players and spectators may not handle, remove or alter any cards used to play Free Bet Blackjack.

K. Each player at the table shall be responsible for correctly computing the point count of his hand and no player shall rely on the point counts announced by the dealer.

8. **Payment of Blackjack.**

A. If the first face up card dealt to the dealer is a 2, 3, 4, 5, 6, 7, 8, or 9 and a player has Blackjack, the dealer shall announce and pay the Blackjack at odds of 3 to 2 or 6 to 5.

B. If the first face up card dealt to the dealer is an ace, king, queen, jack or 10 and a player has a Blackjack; the dealer shall announce the player's Blackjack but shall make no payment nor remove any cards until the dealer's second card is known not to give the dealer Blackjack. If the dealer's second card does not give the dealer Blackjack, play will continue and the player having Blackjack shall be paid at odds of 3 to 2 or 6 to 5. If the dealer's second card gives him Blackjack, the wager of the player having Blackjack shall be void and returned to the player.

9. **Insurance.**

A. Whenever the first card dealt to the dealer is an ace, each player shall have the right to make an Insurance Wager which shall win if the dealer's second card is a king, queen, jack or 10 and shall lose if the dealer's second card is an ace, 2, 3, 4, 5, 6, 7, 8, or 9.

B. If a player has Blackjack, and the dealer has an ace up, the player may not take insurance but may elect to receive Even Money and be paid 1 to 1 for the blackjack before the dealer checks the hole card. After paying Even Money, the dealer will place the cards into the discard rack and the players hand will be over at the time.

C. An Insurance Wager may be made by placing on the insurance line of the layout an amount not more than half the amount staked on the player's initial wager. E. Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

10. **Double Down Wager.**

A. A player may elect to make a Double Down Wager, which may not exceed the amount of his original wager on the first two cards dealt to him or the first two cards of any split pair except aces, on the condition that one and only one additional card shall be dealt to the hand on which the player has elected to double down. Players will not have an option to double down when they have Blackjack.

B. If a dealer obtains Blackjack after a player makes a Double Down Wager, the dealer shall only collect the amount of the original wager of the player and shall not collect the additional Double Down Wager.

C. Upon a player's election to make a Double Down Wager, the dealer shall deal the one additional card face upwards, and placed sideways on the layout. Players may request the double down card to be dealt face down. When the hand is over the dealer will turn-over the card dealt face down revealing the value and pay and take according to round of play rules.

D. Free Double Down Wager:

i. Except for when a player has a Blackjack, a player may elect to Double Down for free on the first two (2) cards with a hard total of 9, 10 or 11 dealt to him/her or the first two (2) cards of any Split Pair that also have a hard total of 9, 10, or 11. ii. Upon a player's election to make a Free Double Down, the dealer shall deal the one additional card face upwards, and placed sideways on the layout. Players may request the double down card to be dealt face down. When the hand is over the dealer will turn-over the card dealt face down revealing the value and pay and take according to round of play rules.

iii. If the player wins the free bet hand, the dealer will pay the original wager 1 to 1, as well as replace the Free Bet lammer with the amount of the original wager. The dealer will then take the Free Bet lammer and place it back into the tray.

iv. If the player pushes the free bet hand, the dealer will push the hand, and take the Free Bet lammer and place it back in the tray.

v. If the player loses the free bet hand, the dealer will collect the original wager and the Free Bet lammer and place them both back into the tray.

vi. If the player wins the free bet option to split their hand, and the original bet loses, the dealer will tuck the cards for that hand under the original wager, and leave it there until the remaining free bet hands have been acted on.

11. **Splitting Pairs.**

A. Whenever the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands provided that he makes a wager on the second hand so formed in an amount

B. When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand.

C. A player may split aces once for a total of two hands with each ace receiving one card. When a 10 is drawn on a split ace the hand total is 21, not blackjack. When an ace is drawn on a split 10 the hand total is soft 21.

D. If the dealer obtains Blackjack after a player splits pairs, the dealer shall only collect the amount of the original wager of the player and may not collect the additional amount wagered in splitting pairs.

E. Free Splitting:

i. Whenever the initial two cards dealt to a player are identical in value except any 10 point value, the player may elect to split the hand into two separate hands.

ii. A lammer reading "Free Bet" will be placed next to the original bet to indicate that the patron has elected to split.

iii. If the player wins the free bet hand, the dealer will pay the free hand the amount of the original wager, the dealer will then take the Free Bet lammer and place it back into the tray.

iv. If the player pushes the free bet hand, the dealer will push the hand, and take the Free Bet lammer and place it back in the tray.

v. If the player loses the free bet hand, the dealer will collect the Free Bet lammer and place them both back into the tray.

vi. If the player uses the free bet option to split their hand, and the original bet loses, the dealer will tuck the cards for that hand under the original wager, and leave it there until the remaining free bet hands have been acted on.

A. A card found turned face upwards in the shoe may not be used in the game and shall be placed in the discard rack.

B. A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

C. After the initial two cards have been dealt to each player and a card is drawn in error by the dealer and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card shall not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

D. If the dealer has seventeen and accidentally draws a card for himself, the card shall be placed in the discard rack.

E. If the dealer misses dealing his first or second card to himself, the dealer shall continue dealing the first two cards to each player, and then deal the appropriate number of cards to himself.

F. If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut according to the procedures outlined in § 6 (relating to shuffle and cut of the cards), the first card shall be drawn face down and placed in the discard rack, and the dealer shall complete the round of play.

D. If the cards have been misdealt (a player or the area designed for the placement of the dealer's hand has more or less than three or two cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. i. If a player chooses to let Bet Number 1 ride, that bet shall remain on the appropriate betting area of the layout until the end of the round of play.

ii. If a player chooses to withdraw Bet Number 1, the dealer shall move the gaming chips on the betting area designated for Bet Number 1 toward the player who shall then immediately remove the gaming chips from the betting area.

C. After each player has made a decision regarding Bet Number 1, the dealer shall then turn the community card that is to the dealer's left face up. The exposed card shall become the first community card.

D. After the first community card is exposed, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to withdraw Bet Number 2 or Let It Ride. This decision shall be made by each player regardless of the decision made concerning Bet Number 1.

i. If a player chooses to let Bet Number 2 ride, that bet shall remain on the appropriate betting area of the layout until the end of the round of play.

E. The dealer shall then turn the community card that is to the dealer's right face up. The exposed card shall become the second community card.

F. After the second community card is turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

ii. The dealer shall examine the cards of the player to determine if the player's hand qualifies for a payout under §13 (relating to payout odds; payout limitation). A Let It Ride Poker wager under § 7 (relating to wagers) on a hand which has a rank that is lower than a pair of tens shall be a losing wager.

iii. The dealer shall then settle all wagers of that player, including any bonus wagers. All losing wagers by the player shall be immediately collected by the dealer and placed in the table inventory container. After all losing wagers have been collected, all winning wagers shall be paid in accordance with the payout odds in § 13.

A. Immediately prior to the commencement of play, unless the cards were preshuffled, and after the completion of each shoe that is dealt, unless an automated shuffling device is used, the dealer shall shuffle the cards so that they are randomly intermixed.

B. After the cards have been shuffled by a dealer, the dealer shall leave the entire stack of cards intermixed but not entirely squared off (leave them feathered) so that the Table Games Supervisor can verify that the shuffle did not result in any uneven distribution of cards.

C. After shuffling the cards and, where applicable, reshuffling them, the dealer shall offer the stack of cards, with backs facing away from the dealer, to the players to be cut. If no player accepts the cut, the dealer shall cut the cards.

E. Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least 14 cards above the bottom of the stack, and the second cover card at the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

F. After the cards have been cut and before the cards have been placed in the dealing shoe, a Table Games Supervisor or above may require the cards to be recut if the Table Games Supervisor or above determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

G. Prior to commencement of play, the dealer shall remove the first card from the dealing shoe and place it, and an additional number of cards equal to the face value of the first card drawn, in the discard rack after all cards have been shown (but not exposed) to the players. When determining the face value of the first card removed from the dealing shoe, a 10, jack, queen or king shall count as ten and an ace shall count as one.

H. If there is no gaming activity at a Mini-Baccarat table which is open for gaming, at the property's discretion the cards may be removed from the dealing shoe and the discard rack, and spread out on the table face down.

i. If there is no automated shuffling device in use, the cards shall be mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section.

ii. If an automated shuffling device is in use, the cards shall be stacked and placed into the automated shuffling device to be shuffled. The batch of cards already in the shuffler shall then be removed. Unless a player so requests, the batch of cards removed from the shuffler need not be spread for inspection and reshuffled prior to being dealt.

6. **Value; Point Count of Hand.**

A. The value of the cards in each deck shall be as follows:

- i. Any card from 2 to 9 shall have its face value.
- ii. Any 10, jack, queen or king shall have a value of zero.

B. The Point Count of a hand shall be a single digit number from 0 to 9 inclusive and shall be determined by totaling the value of the cards in the hand. If the total of the cards in a hand is a two-digit number, the left digit of the number shall be discarded and the right digit shall constitute the Point Count of the hand. Examples of this rule are as follows:

- i. A hand composed of an ace, 2 and 4 has a Point Count of 7.
- ii. A hand composed of an ace, 2 and 9 has a total of 12 but only a Point Count of 2 since the digit 1 in the number 12 is discarded.

B. Following the announcement of the Point Counts of each hand, the dealer shall determine whether to deal a third card to each hand in conformity with the requirements of § 11 (relating to rules for determining whether a third card shall be dealt).

C. After the dealer positions the cards in accordance with § 9.C.i or ii, any third card required to be dealt shall first be dealt face up to the Player's Hand and then to the Banker's Hand by the dealer.

D. In no event may more than one additional card be dealt to either hand.

E. Whenever the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. At the completion of that hand, the cards shall be reshuffled.

(c) The Banker's Hand has a Point Count of 3, 4, 5 or 6, the Banker's Hand shall be dealt or not dealt a third card in accordance with Table 1 as follows:

**Table 1 - Value of the Third Card**

		Drawn by Players Hand									
		0	1	2	3	4	5	6	7	8	9
Point Count of Banker's Hand After Two Cards	3	Draw	Draw	Draw	Draw	Draw	Draw	Draw	Draw	Stand	Draw
	4	Stand	Stand	Draw	Draw	Draw	Draw	Draw	Draw	Stand	Stand
	5	Stand	Stand	Stand	Stand	Draw	Draw	Draw	Draw	Stand	Stand
	6	Stand	Stand	Stand	Stand	Stand	Stand	Stand	Draw	Draw	Stand

D. The first vertical column in Table 1 labeled "Point Count of Banker's Hand" refers to the Point Count of the Banker's Hand after the first two cards have been dealt to the Banker's Hand.

E. The first horizontal row at the top of Table 1 labeled "Value of the Third Card Drawn by Player's Hand" refers to the value of the third card drawn by the Player's Hand, not the Point Count of the Player's Hand.

F. To use Table 1, first find the Point Count of the Banker's Hand in the first vertical column and trace that horizontally across the table until it intersects the vertical column that corresponds to the value of the third card drawn by the Player's Hand. The symbol located where the intersection occurs shall determine whether the Banker's Hand must draw a third card or stay. For example, if the Point Count of the Banker's Hand after two cards is 5 and the value of the third card drawn by the Player's Hand is 4, the table shows that the Banker's Hand must draw a third card.

**12. Announcement of Result of Round; Payment and Collection of Wagers.**

A. After each hand has received all the cards to which it is entitled under § 9, 10 and 11 (relating to hands of player and banker; procedure for dealing initial two cards to each hand; procedure for dealing a third card; and rules for determining whether a third card shall be dealt), the dealer shall announce the final Point Count of each hand indicating which hand has won the round. If two hands have equal Point Counts, the dealer shall announce "tie hand".

B. After the result of the round is announced, the dealer responsible for the wagers on the table shall first collect each losing wager. After the losing wagers are collected, the dealer shall, starting at the highest numbered player position at which a winning wager is located, mark or collect the vigorish owed by that player and immediately thereafter pay that player's winning wager and then, proceeding in descending order to the next highest numbered player position at which a winning wager is located, repeat this procedure until the vigorish owed by each player is either marked or collected and each winning wager is paid.

The amount of any vigorish not collected at the time of the winning payouts shall be tracked by placing a coin or marker button containing the amount of the vigorish owed in a rectangular space in front of the dealer on the layout imprinted with the number of the player owing the vigorish. The coin or marker button may not be removed from the layout until the vigorish owed is collected.

F. The type and percentage of vigorish charged at a Mini-Baccarat table applies to all players at that table. The same type and percentage of vigorish shall be used for all Mini-Baccarat tables located within a licensed facility.

14. **Irregularities.**

A. A card drawn in error from the dealing shoe that is not disclosed shall be used as the first card of the next hand of play.

B. A third card dealt to the Player's Hand that is not disclosed, when no third card is authorized under § 11 (relating to rules for determining whether a third card shall be dealt), shall become the third card of the Banker's Hand if the Banker's Hand is obliged to draw under § 11.C. If the Banker's Hand is required to stay, the card dealt in error shall become the first card of the next hand.

C. If a card dealt in error under the circumstances described in subsections A or B is disclosed at the time it is dealt, the dealer shall, use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. C. If no player accepts the cut, the dealer shall cut the cards.

D. The player shall cut the cards by placing the cutting card in the stack in accordance with standards determined by the property.

The dealer shall then take the entire stack of cards that was just cut and align them along the side of the dealing shoe. The cut card will be placed in the stack to indicate the last hand of the shoe. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

F. After the cards have been cut and before any cards have been dealt, a Table Games Supervisor or above may require the cards to be recut if he determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

- iii. A second card face up to each box in which a wager is contained.

The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone, including the dealer, at the table.

E. After the cards have been dealt, and if necessary, the procedure in subsection F has been executed, beginning from the dealers left, the player shall indicate whether he wishes to double down as permitted under §10 (relating to doubling down), split pairs as permitted under §11 (relating to splitting pairs), stand or draw as permitted under §12 (relating to drawing of additional cards by players and the dealer).

F. As each player indicates his decision(s), the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision consistent with this chapter. The property may offer the option for a player to request for a card to be dealt face down in instances of "doubling down". The dealer will deal the card face down during these instances.

G. After the decisions of each player have been implemented and all additional cards have been dealt; the dealer shall turn the second card that was dealt to the dealer face upwards. Any additional cards required to be dealt to the hand of the dealer under §12.B shall be dealt face upwards at this time.

H. At the conclusion of a round of play, all cards still remaining on the layout shall be picked up by the dealer in order and in a way that the cards can be readily arranged to indicate each player's hand in case of question or dispute. The dealer shall pick up the cards beginning with those of the player to his far right and moving counterclockwise around the table. After all the players' cards have been collected the dealer shall pick up his cards against the bottom of the players' cards and place them in the discard rack.

I. Whenever the cutting card is the first card in the dealing shoe at the beginning of a round of play or is reached in the deal of the cards, the dealer may continue dealing the cards until that round of play is completed after which the dealer shall:

K. Each player at the table shall be responsible for correctly computing the point count of his hand and no player shall rely on the point counts announced by the dealer.

8. **Payment of Blackjack.**

A. If the first face up card dealt to the dealer is a 2, 3, 4, 5, 6, 7, 8, or 9 and a player has Blackjack, the dealer shall pay the Blackjack at odds of 3 to 2 or 6 to 5.

B. If the first face up card dealt to the dealer is an ace, king, queen, jack or 10 and a player has a Blackjack; the dealer shall make no payment nor remove any cards until the dealer's second card is known not to give the dealer Blackjack. If the dealer's second card does not give the dealer Blackjack, play will continue and the player having Blackjack shall be paid at odds of 3 to 2 or 6 to 5. If the dealer's second card gives him Blackjack, the wager of the player having Blackjack shall be void and returned to the player.

9. **Insurance Wager.**

A. Whenever the first card dealt to the dealer is an ace, each player shall have the right to make an Insurance Wager which shall win if the dealer's second card is a king, queen, jack or 10 and shall lose if the dealer's second card is an ace, 2, 3, 4, 5, 6, 7, 8, or 9.

B. An Insurance Wager may be made by placing on the insurance line of the layout an amount not more than half the amount staked on the player's initial wager. A player may wager an amount in excess of half of the initial wager to the next unit that can be wagered in chips, when because of the limitation of the value of chip denominations; half the initial wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

C. Winning Insurance Wagers shall be paid at odds of 2 to 1.

D. Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

10. **Double Down Wager.**

A. Except for when a player has a Blackjack, a player may elect to make a Double Down Wager, which may not exceed the amount of his original wager on the first two cards dealt to him or the first two cards of any split pair except aces, on the condition that one and only one additional card shall be dealt to the hand on which the player has elected to double down.

B. If a dealer obtains Blackjack after a player makes a Double Down Wager, the dealer shall only collect the amount of the original wager of the player and shall not collect the additional Double Down Wager.

C. Upon a player's election to make a Double Down Wager, the dealer shall deal the one additional card face upwards, and placed sideways on the layout. Players may request the double down card to be dealt face down. When the hand is over the dealer will turn-over the card dealt face down revealing the value and pay and take according to round of play rules.

A. Whenever the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands provided that he makes a wager on the second hand so formed in an amount equal to his original wager. For example, if a player has two 7's or a king and a 10, the player may elect to split the hand.

B. When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand.

C. After a second card is dealt to each split pair hand, the player shall indicate his decision to stand, draw or double down with respect that hand except that: A player may split two more pair if the second card dealt is identical in value to a card of the split pair, for a total of four hands. A player may split aces once for a total of two hands with each ace receiving one card. When a 10 is drawn on a split ace the hand total is 21, not blackjack. When an ace is drawn on a split 10 the hand total is soft 21.

D. If the dealer obtains Blackjack after a player splits pairs, the dealer shall only collect the amount of the original wager of the player and may not collect the additional amount wagered in splitting pairs.

12. **Drawing of Additional Cards by Players and the Dealer.**

A. A player may elect to draw additional cards whenever his point count total is less than 21, except that:

i. A player having a hard total of 21 may not draw additional cards.

ii. A player electing to make a Double Down Wager may draw only one additional card.

iii. A player splitting aces may only have one card dealt to each ace.

iv. Provided the dealer does not have a blackjack, players will have the option to "ZAP" their hand and receive two new cards, provided they are dealt with their first two cards a hard two-card total of 15, 16, 17, or 18.

(a) Players will indicate their intention to "Zap" their hand with a closed fist hand signal.

(b) A player may "Zap" their hand only once per hand.

(c) If a player "Zaps" their initial hand and is then dealt an Ace and a Ten/Face card, the hand counts as an ordinary 21 (not a Blackjack) and will be paid even money if it wins.

B. If a player "Zaps" their initial hand, all doubling and splitting is allowed except as provided in subsection C, the dealer shall draw additional cards to a hard total of 17 or above or soft total of 18 or above, unless specified on the layout that the dealer will stand on any 17.

C. A dealer shall draw no additional cards to the dealer's hand, regardless of the point count, if decisions have been made on all player's hands and the point count of the dealer's hand will have no effect on the outcome of the round of play.

13. **Player Wagering on More Than One Box.** The property has the right to allow a single patron to play a multiple number of adjacent boxes during one round of play. The property may require a specific minimum wager for multiple bets, which may be different than the posted minimum.

14. **Continuous Shuffling Shoe or Device.** In lieu of the dealing and shuffling requirements set forth in §6 and 7 (relating to shuffle and cut of the cards; and procedure for dealing cards), the property may utilize a dealing shoe or other device designed to automatically reshuffle the cards.

15. **Side Bets.**

A. ***"House Money."*** *House Money* is a side bet for blackjack. Players win if their first two cards make any of the following hands: (i) Ace-King Suited; (ii) Straight Flush; (iii) Pair; or (iv) Straight. Players may immediately collect their winnings or they may apply them to their standard blackjack bet, giving them the chance to play with "house money."

i. Dealing Procedures.

(a) Players must make their standard blackjack wagers, and they may also make the House Money side bet within the posted minimum/maximum. At the property's discretion and when posted, a side bet wager may be made mandatory prior to the first card being dealt for each round of play. The dealer then follows the standard blackjack rules in accordance with Section J: Blackjack.

(b) The House Money wager is based on the player's original two cards.

ii. Pay and Take

(a) If the dealer has an Ace or a 10 value showing, the dealer will check for blackjack before paying winning House Money wagers.

(1) If the dealer has blackjack, the dealer will pay the winning House Money bets, but the players will not have the option of adding their House Money side bet winnings to their standard blackjack wagers.

(2) If the dealer does not have blackjack, the dealer will pay the House Money wagers and then ask player if they want the proceeds (the win plus the original House Money wager) given to them or added to their standard blackjack wagers. Players may elect to add none or any percentage up to 100% of the House Money proceeds. Once all House Money wagers have been resolved, the dealer will follow the standard blackjack rules in accordance with Section J: Blackjack.

(b) If the dealer does not have an Ace or 10 value showing, the dealer will follow the standard blackjack rules in accordance with Section J: Blackjack.

(c) If the player receives one of the winning House Money payouts, the player may choose to "cap" their base blackjack wager by adding up to the entire amount paid (including the original side bet wager) to their base blackjack wager. The entire wager will be considered their blackjack wager. Thus, if the player eventually splits, the player must match the entire wager as required in Section J: Blackjack. If the player doubles down, the player may match the entire wager or may choose to double down for less as allowed in Section J: Blackjack. The player may also cap their wager if the winning hand was a Blackjack (including Ace-King suited).

G. After the decisions of each player have been implemented and all additional cards have been dealt; the dealer shall turn the second card that was dealt to the dealer face upwards. Any additional cards required to be dealt to the hand of the dealer under §12.B shall be dealt face upwards at this time.

H. At the conclusion of a round of play, all cards still remaining on the layout shall be picked up by the dealer in order and in a way that the cards can be readily arranged to indicate each player's hand in case of question or dispute. B. If the first face up card dealt to the dealer is an ace, king, queen, jack or 10 and a player has a Blackjack; the dealer shall make no payment nor remove any cards until the dealer's second card is known not to give the dealer Blackjack. If the dealer's second card does not give the dealer Blackjack, play will continue and the player having Blackjack shall be paid at odds of 3 to 2 or 6 to 5. If the dealer's second card gives him Blackjack, the wager of the player having Blackjack shall be void and returned to the player.

9. **Insurance Wager.**

A. Whenever the first card dealt to the dealer is an ace, each player shall have the right to make an Insurance Wager which shall win if the dealer's second card is a king, queen, jack or 10 and shall lose if the dealer's second card is an ace, 2, 3, 4, 5, 6, 7, 8, or 9.

B. If a dealer obtains Blackjack after a player makes a Double Down Wager, the dealer shall only collect the amount of the original wager of the player and shall not collect the additional Double Down Wager.

C. Upon a player's election to make a Double Down Wager, the dealer shall deal the one additional card face upwards, and placed sideways on the layout. Players may request the double down card to be dealt face down. When the hand is over the dealer will turn-over the card dealt face down revealing the value and pay and take according to round of play rules.

D. The property may elect to offer different Double Down Wager rules on double deck and single deck Blackjack games. These rules will be clearly posted at each double deck and/or single deck Blackjack game.

11. **Splitting Pairs.**

A. Whenever the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands provided that he makes a wager on the second hand so formed in an amount equal to his original wager. For example, if a player has two 7's or a king and a 10, the player may elect to split the hand.

B. When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand.

C. When an ace is drawn on a split 10 the hand total is soft 21.

D. If the dealer obtains Blackjack after a player splits pairs, the dealer shall only collect the amount of the original wager of the player and may not collect the additional amount wagered in splitting pairs.

E. The property may elect to offer different split rules on double deck and single deck Blackjack games. These rules will be clearly posted at each double deck and/or single deck Blackjack game.

(b) The Banker’s Hand has a Point Count of 7, the Banker’s Hand may not be dealt a third card.

(c) The Banker’s Hand has a Point Count of 3, 4, 5 or 6, the Banker’s Hand shall be dealt or not dealt a third card in accordance with Table 1 as follows:

**Table 1 - Value of the Third Card**

Drawn by Players Hand											
		0	1	2	3	4	5	6	7	8	9
Point Count of Banker's Hand After Two Cards	3	Draw	Draw	Stand	Draw						
	4	Stand	Stand	Draw	Draw	Draw	Draw	Draw	Draw	Stand	Stand
	5	Stand	Stand	Stand	Stand	Draw	Draw	Draw	Draw	Stand	Stand
	6	Stand	Draw	Draw	Stand						

D. The first vertical column in Table 1 labeled "Point Count of Banker's Hand" refers to the Point Count of the Banker’s Hand after the first two cards have been dealt to the Banker’s Hand.

E. The first horizontal row at the top of Table 1 labeled "Value of the Third Card Drawn by Player's Hand" refers to the value of the third card drawn by the Player’s Hand, not the Point Count of the Player’s Hand.

F. To use Table 1, first find the Point Count of the Banker’s Hand in the first vertical column and trace that horizontally across the table until it intersects the vertical column that corresponds to the value of the third card drawn by the Player’s Hand. The symbol located where the intersection occurs shall determine whether the Banker’s Hand must draw a third card or stay. For example, if the Point Count of the Banker’s Hand after two cards is 5 and the value of the third card drawn by the Player's Hand is 4, the table shows that the Banker’s Hand must draw a third card.

If two hands have equal Point Counts, the dealer shall announce "tie hand".

B. After the result of the round is announced, the dealer responsible for the wagers on the table shall first collect each losing wager.
